DETAILED ACTION

Allowable Subject Matter

1. Claims 1-30 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: Claims 1, 12 and 21 are allowable over the prior art of record since the cited references taken individually or in combination fails to particularly disclose querying (fig 6, SIP user agent performs and is tied to querying) a unified location management device having location information stored therein for users of said different network protocols, relaying the mobile user location related information from the unified location manager regarding a user of said one of said first and second network, selecting a gateway based on the location information provided, wherein for calls from an internet telephony device to a mobile device, said unified location manager operates as an inbound proxy for a given IP domain allowing selection of a location dependent routable temporary phone number such that a call path from the telephony device to the mobile device bypasses the mobile devices home MSC or gateway MSC, and for the PSTN originated calls to an internet telephony user, cellular numbers are used to denote internet telephony telephones.

It is noted that the closest prior art of record Valentine (US 6504839) shows a method for routing information from a packet switched network to a mobile device by

redirecting a call request to an MSC having IP capability. However, Valentine fails to disclose or render obvious the above underlined limitations as claimed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CHRISTOPHER P. GREY whose telephone number is (571)272-3160. The examiner can normally be reached on 10AM-7:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Moe Aung can be reached on (571)272-7314. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
